

# Canvas Integration and Installation Manual

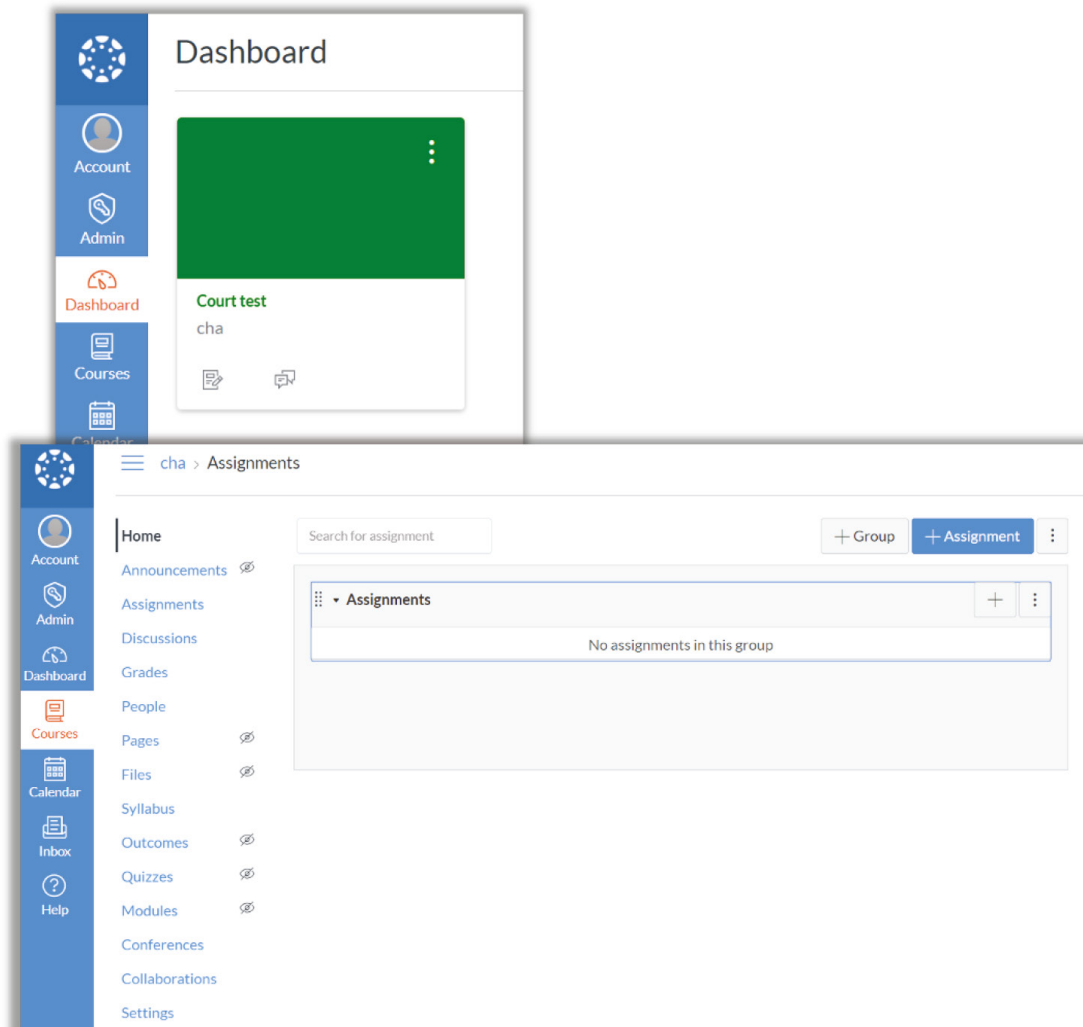

## Instructor Guide

### About Ouriginal LTI Integration with Canvas

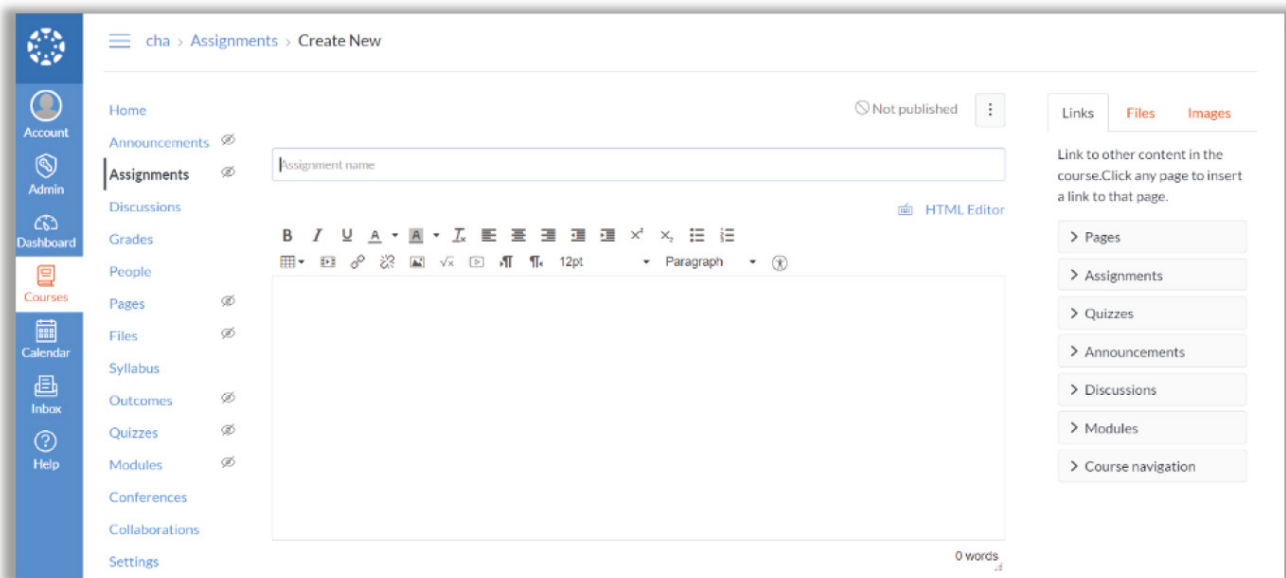

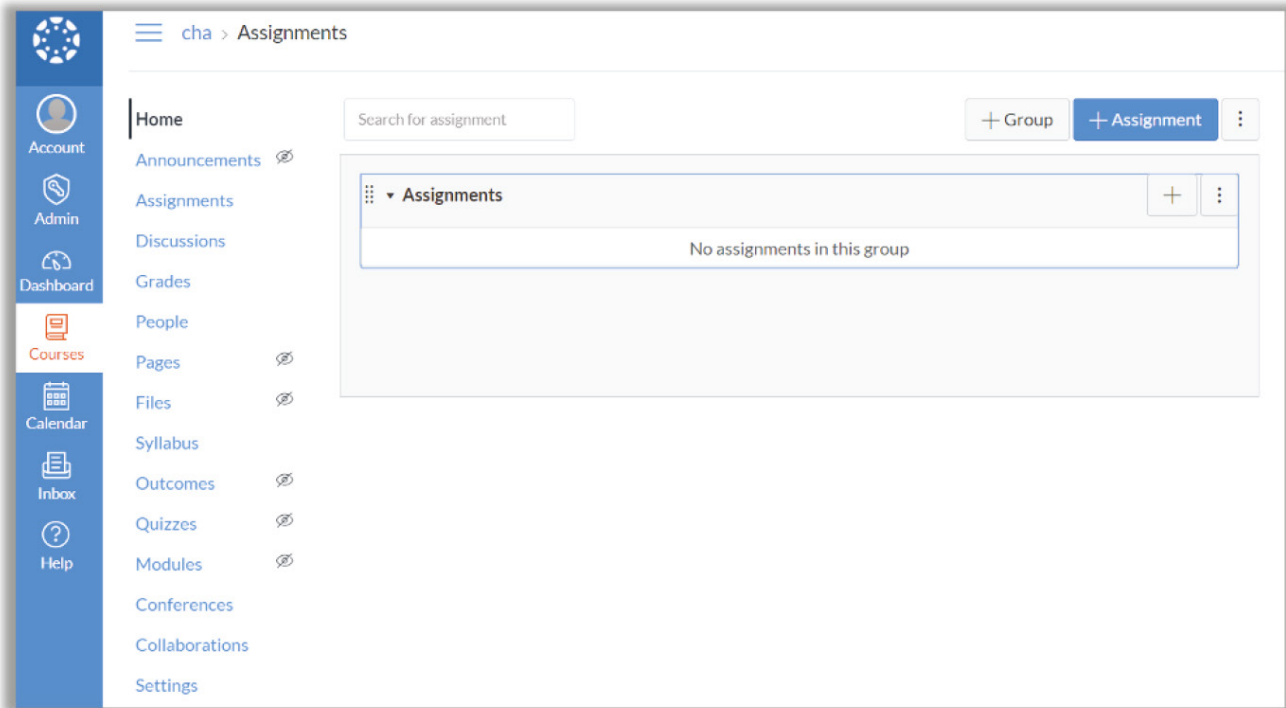

Ouriginal can be added to an institutional LMS through an LTI tool integration. The integration allows the institution Admin User(s) access to the Ouriginal tool features through their LMS without having to make changes to the LMS properties. Canvas institution Admin User(s) can add the Ouriginal tool to their Canvas instance, making it available to instructors as a preconfigured tool for their courses.

### Assignment Creation Instructions

In your Course, select 'Assignments'.

In Assignments, select '+ Assignment' and a new screen will appear to create your assignment. Complete the assignment as you normally would with an Assignment Name etc. until you reach the 'Submission Type' box.

In this box, be sure to select 'Online' for submission type and select the 'Entry Options'.

Points: 0

Assignment group: Assignments

Display grade as: Points

Do not count this assignment towards the final grade

Submission type: Online

**Online entry options**

Enter a list of accepted extensions, for example:  
doc,xls,txt

The next box is the 'Plagiarism Review' box. Here you will select 'Ouriginal' from the dropdown menu.

Plagiarism Review: None

Show report to students: Never

Group assignment: Plagiarism Review

Plagiarism Review dropdown options: None, URKUND

Show report to students: Never

OPTIONAL: The 'Anonymous' feature is an additional layer of privacy afforded to students that allows for their submission to be completely anonymous should it flag as similar to another student's submission.

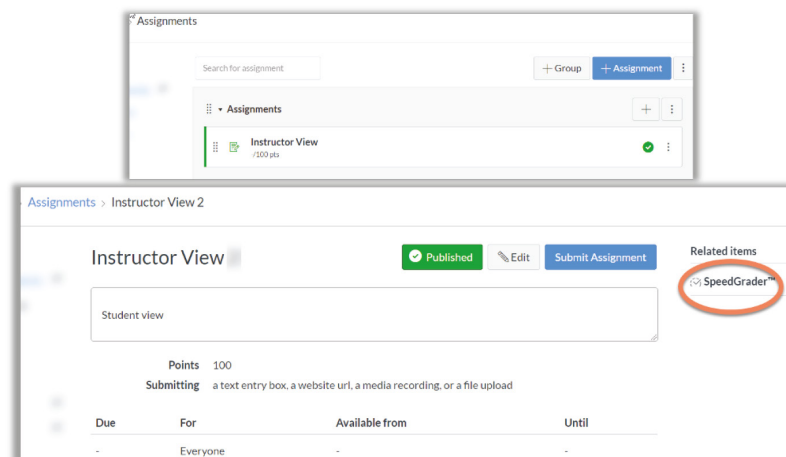

Still under the Plagiarism Review box, select when or if you want your students to see the Original Similarity Report. Then select 'Save & Publish'

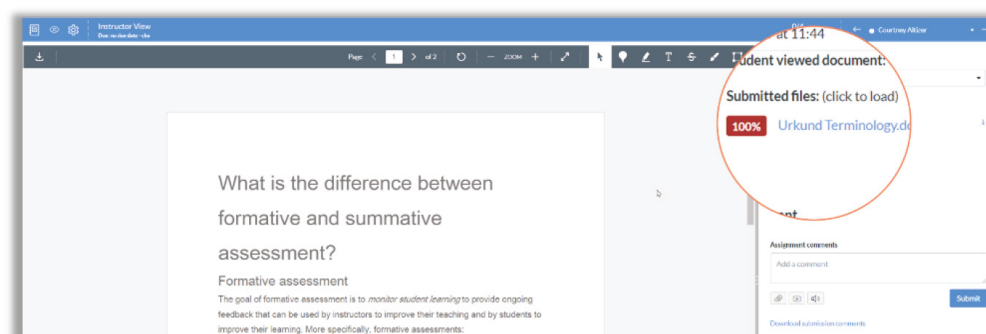

## View Results

In Canvas SpeedGrader – Go into your Assignments and open the desired assignment.

The SpeedGrader window will appear displaying the document submitted by the student and the Similarity Score (A red tag with a percentage - located in the right-hand column). NOTE: Sometimes the Similarity Score does not appear right away.

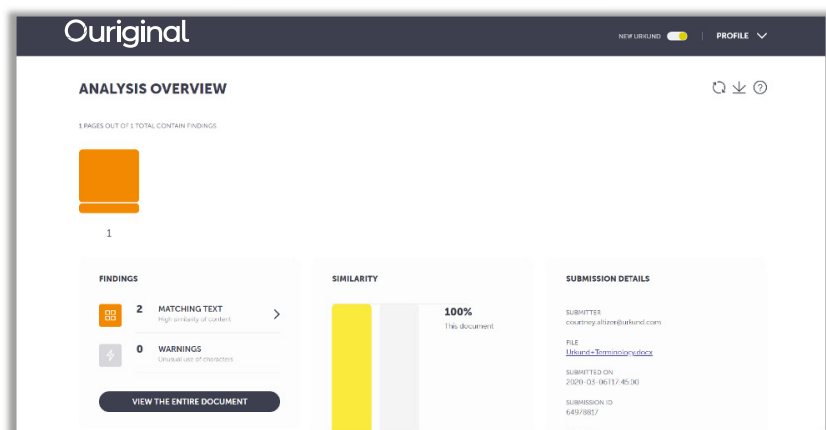

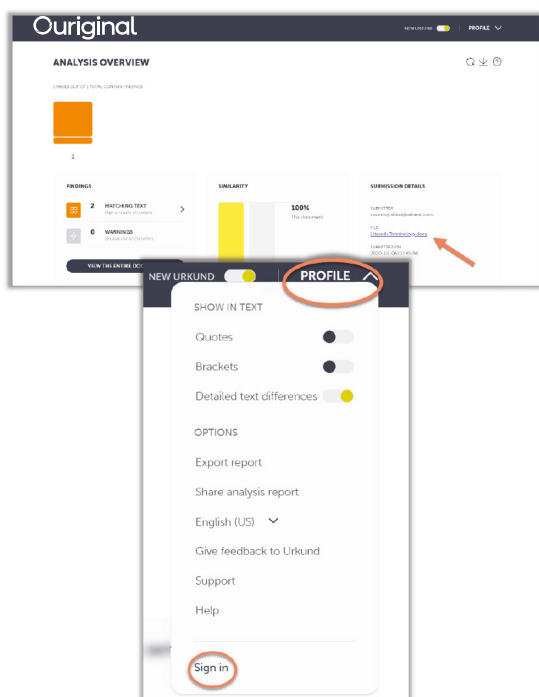

When this is the case, you will see a watch clock icon that means the report is pending. This can sometimes take up to 7-8 minutes. You will need to refresh your screen to see when the Similarity Score has changed.

Select the red tag Similarity Report. A new window will open to view the Ouriginal Similarity Report.

If you want to view the document that was submitted (visible as a highlighted hyperlink), you will have to sign-in under Profile using your Ouriginal credentials.

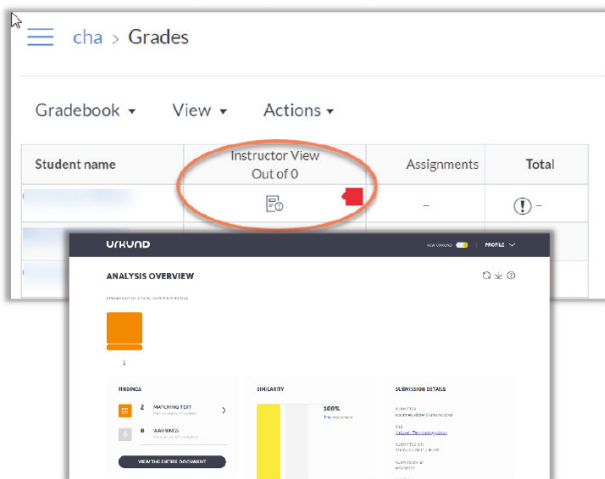

In Canvas Grades, select your Course and the desired Assignment.

Your gradebook will appear. The column under the Assignment Title you gave it will show when a document has been submitted for each student – and red label . The red label indicated that the submission has generated an Original Similarity Report. Select the red label to view more details and access the report as you did in SpeedGrader .
