

Set up and start with Ouriginal in Inspera

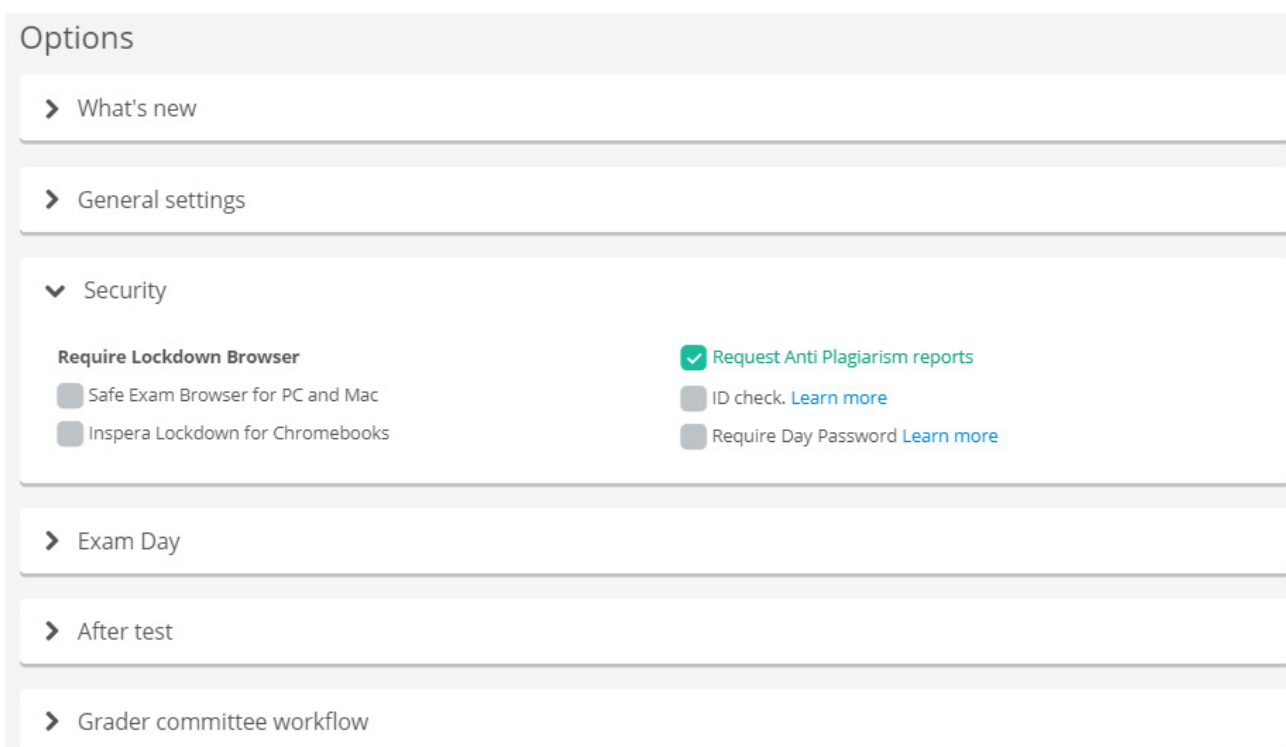

Inspira Assessment is integrated with the Ouriginal plagiarism control service.

You will have the choice of plagiarism control both on assignments and exams.

When grading, you will be presented with the results of the plagiarism check under the ‚plagiarism control‘ tab in assessment. Plagiarism control is a default setting for home exams and submissions conducted with Inspera that are not school exams. The results of plagiarism control are presented as percentages that indicate how much of the candidate’s answer occur in other sources. The report also contains links to the external sources. Text found in other sources appears in orange.

How does Ouriginal work in Inspera?

The subject’s administrative contact activates plagiarism control in the test options.

The screenshot shows the 'Options' menu in Inspera. The 'Security' section is expanded, showing several settings. The 'Request Anti Plagiarism reports' option is checked, while 'Safe Exam Browser for PC and Mac', 'Inspera Lockdown for Chromebooks', 'ID check', and 'Require Day Password' are unchecked. There are also 'Learn more' links next to the 'ID check' and 'Require Day Password' options.

Section	Option	Status	Additional Info
Security	Require Lockdown Browser	Unchecked	
	Safe Exam Browser for PC and Mac	Unchecked	
	Inspera Lockdown for Chromebooks	Unchecked	
	Request Anti Plagiarism reports	Checked	
Security	ID check	Unchecked	Learn more
	Require Day Password	Unchecked	Learn more
