

The Ouriginal Webinbox

Inbox update (Receivers)

The screenshot shows the Ouriginal Webinbox interface. At the top, there is a navigation bar with a '+' icon, 'Inbox' dropdown, 'Inbox > Courses', a search bar, and a user profile icon 'JB'. Below the navigation bar, there is a sidebar with 'Inbox', 'Source Filter', and 'Bin' options. The main area displays a list of documents with columns for checkboxes, document names, authors, similarity percentages, and dates. The selected document is 'Interpretations-of-2001: A-Space-Odyssey.pdf' by Frank Poole, with a 21% similarity and a date of 07/19/2021. To the right, a detailed view of this document is shown, including the file name, author, date, and a summary of the content. A table below the summary shows '21% Similarity', '14.625 Total Words', and '6% Largest match'. The file size is '83kb', the file type is 'PDF', and the submission ID is 'D07096717'. A warning message 'Unusual use of characters' is displayed, and an 'OPEN' button is at the bottom.

Document Name	Author	Similarity	Date added
WS_2020_2021_Astronomy_F9	15 documents	-	-
Space-and-exploration.pdf	Joseph Cooper	12%	07/29/2021
Aerothermal-Analysis-of-Reusable-First-Stage.txt	Matt Kowalski	17%	07/29/2021
Exoplanet-Classification-and-Yield-Estimate...r-Direct-Imaging-Missions.doc	David Bowman	13%	07/26/2021
Interpretations-of-2001: A-Space-Odyssey.pdf	Frank Poole	21%	07/19/2021
How-surface-composition-and-mete...assium-in-the-lunar-exosphere.docx	Sam Bell	2%	07/12/2021
Equatorial-locations-of-water-on-Mars.docx	Hinh Mann	16%	07/12/2021

Similarity	Total Words	Largest match
21%	14.625	6%

Since our initial product launch in the spring of 2021, we have worked constantly to bring further improvements to our customers' screens. Administrators are now responsible for assigning a role and unit to each user. Your role determines what features you have access to, your unit is mainly a tool for managing users.

Multiple receiver addresses

Admins have gained a new feature for managing users in units. For each unit of which you are a receiver, you get a unique receiver address. This helps you manage your inbox more effectively.

Improved navigation

We have redesigned the create/upload button and the navigation to feature new icons and, most importantly, save about 25% horizontal space.

Source Filter

If enabled, receivers can add URLs or documents to their source filter. Findings that match items in the source filter will be hidden from the report.

Better search & filters

We've improved our search function to give you more relevant results. We've also added a filter that lets you hide all received documents and view only the documents you uploaded yourself.

Report & confirmation emails

If enabled by your admin, you can now choose to receive emails when a new report is available or to receive confirmation emails after a document has been submitted.

Switch workspaces

Do you teach at more than one school? Now you can switch between your workspaces without having to log out.

In addition to the options already mentioned, there are also ways to customize access to reports and report percentages, view receiver or submitter data, and download reports.

Depending on your role, the documents in your bin can be included or excluded from future analyses. The same applies to documents that you delete from your trash – they can even be permanently deleted.
